

## ADISTEC DATA PROTECTION APPLIANCES FOR VEEAM

# Adistec announces an innovative Solution for Data Protection

Adistec Data Protection Appliances for VEEAM combine: customized Intel hardware platform, Veeam Availability Suite software and Adistec Enterprise Cloud services resulting in a robust solution to protect your customers' data supported by Adistec Total Support and Veeam. Simplify the Backup Storage's infrastructure, eliminate complexity and maximize data availability and protection with this turnkey solution at an affordable price.

### OUR VALUE

- Three models that fit any customer's need.
- Fully integrated with Adistec Enterprise Cloud.
- Remote administration services that minimize complexity.
- Protection of physical and virtual environments.
- Post sale support by Adistec Total Support.
- Initial configuration by Adistec Professional Services.
- Intuitive and centralized management tools.
- Licensing packages Veeam Availability Suite / Backup and Recovery Suite in OEM modality.
